

Turtle Thrashing External Sound Library

The following sites/software were used to create/edit sounds:

<https://morsecode.world/international/translator.html>

FL Studio

Audacity

The names listed above each link are not necessarily linked to a specific file name. Sounds linked in this library appear in one or more sound files, whether it being its own file, or in tandem with another sound or music file. Most if not all sounds have been modified slightly through the software or websites listed above. If a sound was not listed here, it can be assumed that it was produced through a premium software (like a MIDI from a DAW) or recorded by group members of the development team.
